Author index to volume 108 (2000)

Ackleh, A.S. and K. Deng, A monotone approximation for a nonlinear nonautonomous size-structured population model 108 (2000) 103

Casti, J., R. Kalaba, H. Natsuyama and S. Ueno, Cauchy systems for fredholm integral equations with parameter imbedding 108 (2000) 47

de Castro Santos, L.C., An adjoint formulation for the non-linear potential flow equation 108 (2000) 11
Deng, K., *see* Ackleh, A.S. 108 (2000) 103

Hossain, S.S. and H.A. Muttlak, MVLUE of population parameters based on ranked set sampling 108 (2000) 167

Inohara, T., *see* Yamazaki, A. 108 (2000) 115

Kalaba, R., *see* Casti, J. 108 (2000) 47
Kandil, F.M., Model of competition in the chemostat with instantaneous recycling 108 (2000) 1
Kuang, Y., *see* Li, W. 108 (2000) 85

Lee, P.-A., S.-H. Ong and H.M. Srivastava, Some generating functions for the Laguerre and related polynomials 108 (2000) 129
Li, H., L. White and M. Zaman, A model for fluid accumulation and flow in a three-dimensional porous medium 108 (2000) 177
Li, W., F. Szidarovszky and Y. Kuang, Notes on the stability of dynamic economic systems 108 (2000) 85
Li, Y., X. Zhang and Y. Liu, Basic theory of linear singular discrete systems with delay 108 (2000) 33
Liu, Y., *see* Li, Y. 108 (2000) 33

Muttlak, H.A., *see* Hossain, S.S. 108 (2000) 167

Nakano, B., *see* Yamazaki, A. 108 (2000) 115
Natsuyama, H., *see* Casti, J. 108 (2000) 47
Natsuyama, H.H. and S. Ueno, The probabilistic method for problems of radiative transfer: Markov properties 108 (2000) 55

Ong, S.-H., *see* Lee, P.-A. 108 (2000) 129

Pandey, A. and A.K. Singh, A Bayes test of homogeneity of several means for one parameter exponential populations 108 (2000) 23
